

Rabbit Polyclonal Anti-Type IX Collagen Antibody
Carboxyl non-collagenous four (NC4) domain specific

Product Number 50-1013
Lot R1688

Size: 50 µL serum/vial
Preservative: No Preservatives added

Suggested Working Dilution Range:

Westerns: Dilution 1:1000

Storage: Store product at -70°C until required and then unused portions at 4°C diluted 1:10 in 1% BSA in PBS, pH 7.2, with 0.05% sodium azide. Aliquots of this can be refrozen until needed. After making working dilutions do not use for more than one day.

Expiration Date: 1 year at -70 °C. 1:10 dilutions made as recommended are stable for up to three months at 4°C.

Cross Reactivity: Cross-reacts with mouse, bovine and human.

Antibody Specificity: This polyclonal antibody was raised against a 16 aa peptide sequence from human NC4 domain of type

IX collagen This antibody does not cross react with collagen type I, II, V, VI, X and XI. It shows minimal crossreactivity with collagen type III

Notes

Western blotting of culture medium from bovine fetal chondrocytes showed that the NC4 domain was released as a doublet with the higher molecular weight band having an apparent molecular weight of 27 Kda.

For in vitro research only, not for diagnostic or therapeutic use
