

AEBSF	Research Grade	PN 401
Name	Aminoethyl Benzenesulfonyl Fluoride HCl	
Origin	Chemical synthesis	
CAS number	30827-99-7	
Properties	<ul style="list-style-type: none">◆ Molecular weight: 239.7 g/mol◆ Molecular formula: $C_8H_{10}FNO_2S \cdot HCl$◆ Soluble in water	
Purity	≥ 95% pure by HPLC	
Usage	For research and further manufacturing use only	
Application	Irreversible serine protease inhibitor	
Description	White to off-white solid	
Package size	5 g, 50 g, 100 g, other quantities available upon request	
Storage conditions	Ambient temperature with desiccant
